

Co-op Employees Brighten The Holidays For Children

Delaware Electric Cooperative employees helped to brighten the Christmas season for dozens of children across Delaware. Through the Children's Choice program, Co-op employees generously provided presents for nearly 30 needy children.

The Children's Choice program helps provide presents to children who might otherwise find nothing under their tree on Christmas morning. This is the ninth year Delaware Electric Cooperative employees have offered a helping hand to the program. All of the presents collected were given to children in Kent and Sussex Counties.

Children's Choice is a nonprofit social service agency which provides foster care and adoption services to children. The organization has more than one dozen offices in five states.
